Ice cream, frozen yogurt, milkshakes – no matter what you choose, we deliver great flavor because we use only quality ingredients like real milk, chocolate, and vanilla extracts. And because it's aseptically processed and packaged, the product **doesn't have to be refrigerated** or frozen until you're ready to use it. So you save on transportation costs, storage space and energy costs. It's how we make dessert even more appealing. Packaged in 9 – 64oz bags for a total of 4.5 gallons.
